

# INTELLI-GRIP® TAKES VACUUM LIFTERS TO A WHOLE NEW LEVEL!

WPG's Intelli-Grip® Technology monitors lifters in real time, automatically performing multiple diagnostics. It communicates this information to operators via a color LCD display screen, flashing amber strobe light, and audible alarm. Intelli-Grip® also includes a variety of safety features that help prevent potentially dangerous actions from being performed. Thanks to this technology, lifters can be used with greater efficiency and maximized safety.

## WPG INTELLI-GRIP® APP MAKES LIFTER MONITORING EASIER:

Wherever a DC3 lifter is equipped with Intelli-Grip® 7.0 ( or later ), the app allows mobile devices within range to receive information transmitted by the lifter's Intelli-Grip® Control Unit. The app is ideal for:

- **Lifter Operators**  
Monitor the lifter status and sensor readings vital to safe operation.
- **Crane Operators & Installers**  
Track important safety info in real time instead of having the data relayed.
- **Supervisors**  
Monitor multiple lifters to coordinate work on a job site.
- **Service Techs**  
Resolve any problems quickly using diagnostic codes and live stream troubleshooting.

Intelli-Grip® App is available on  
**APP STORE AND GOOGLE PLAY**

# Helping Bring You HOME SAFE

## THE NEXT GENERATION OF VACUUM LIFTERS

MAXIMIZES PRODUCTIVITY

REDUCES HUMAN ERROR

SIMPLIFIES MAINTENANCE AND REPAIRS

HELPS PROTECT EMPLOYEES FROM HARM

THE ORIGINAL AND TRUSTED NAME IN VACUUM LIFTING EQUIPMENT

WWW.WPG.COM

# SIMPLICITY

- Automatic self-testing ensures lifter is ready for use, every lift.
- Color display provides critically relevant information at a glance.
- Multiple alarm levels plainly identify the severity of hazards.

# SAFETY

- Anticipates threats and alerts operator beforehand with clearly visible and audible warnings.
- Continuously monitors battery and prevents lifter from attaching to loads if energy is hazarously low.
- Actively prevents partial load release, reducing danger of accidents and injuries.

# PRODUCTIVITY

- Automatically displays correct command if operator presses incorrec button.
- Instantly detects potential problems, maximizing lifter readiness.
- Identifies poor battery performance and impending need for replacement.

**WPG INTELLI-GRIP® APP**  
 Makes lifter monitoring easier  
*Available on App Store and Google Play*
