

REMOTE CONTROL SYSTEM

This option enables operators to control attach, release and other powered functions from remote locations, as may be required for multi-story installations.

FEATURES

Specifications

- Radio controlled (FM modulated RF signal)*
- FCC, CE, IC Certified; RSM and ACMA Compliant
- Operator's license not required
- Unique codes prevent hazards caused by interference from other radio or remote transmitters, as well as electromagnetic transmission sources
- Automatic frequency selection allows multiple systems to transmit simultaneously in the same location
- Up to 250 ft [76 m] transmission range
- Stand-by mode conserves battery energy between lifts

Transmitter Controls

- Power: Activates transmitter
- Attach: Engages vacuum at pads
- Function: Allows release function to be activated
- Release: Applies air pressure at pads for quick load release

Additional Indicators

Remote control systems include strobe lights when not already present on the lifter. Existing indicators will still function as before.

* Currently available for use in the United States and European Union locations. Contact your Technical Sales Representative for additional product information.

59906

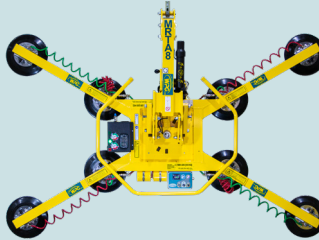

Compatible with the following DC3-equipped vacuum lifter models:
P1, MRT4, MRTA8, MRTALP8, MRTALPCH6, MTCL, MTEX AND FLEXR.

P11104DC3
 (refer to Spec Sheet 4-6 for specifications)

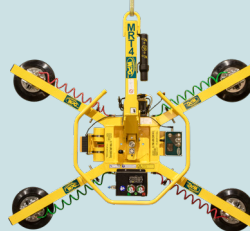

P11102DC3
 (refer to Spec Sheet 4-5 for specifications)

MRTA811LDC3
 (refer to Spec Sheet 8-8 for specifications)

MRTALP811LDC3
 (refer to Spec Sheet 8-10 for specifications)

MRT411LDC3
 (refer to Spec Sheet 8-12 for specifications)

MRTALPCH611LDC3
 (refer to Spec Sheet 8-9 for specifications)

FLEXR8-DC3
 (refer to Spec Sheet 11-08 for specifications)

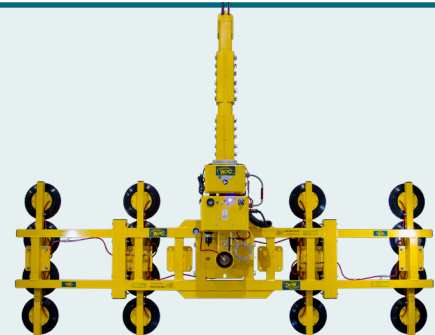

MTCL6625DC3
 (refer to Spec Sheet 7-16 for specifications)

58197

Compatible with the
MR16 Vacuum Lifter.

MR1611LDC
 (refer to Spec Sheet 6-4 for specifications)
